Java: 6

Total Questions Not Visible on Dashboard

The screenshot displays the HackerRank Python domain dashboard. The top navigation bar includes links for 'Prepare', 'Certify', 'Compete', and 'Apply'. The main header shows 'Python' with a progress bar indicating '28/115 challenges solved' and a rank of '98633' with '735' points. The dashboard lists several solved problems, each with a star icon and a 'Solved' button:

- Write a function (Medium, Python (Basic), Max Score: 10, Success Rate: 90.27%)
- The Minion Game (Medium, Python (Basic), Max Score: 40, Success Rate: 67.11%)
- Merge the Tools! (Medium, Problem Solving (Basic), Max Score: 40, Success Rate: 93.69%)
- No Idea! (Medium, Python (Basic), Max Score: 50, Success Rate: 88.94%)
- Word Order (Medium, Python (Basic), Max Score: 50, Success Rate: 91.07%)
- Compress the String! (Medium, Python (Basic), Max Score: 20, Success Rate: 91.31%)
- Piling Up! (Medium, Python (Basic), Max Score: 50, Success Rate: 91.22%)

On the right side, there are filters for 'STATUS' (Solved, Unsolved), 'SKILLS' (Problem Solving (Basic), Python (Basic), Problem Solving (Advanced), Python (Intermediate)), 'DIFFICULTY' (Easy, Medium, Hard), and 'SUBDOMAINS' (Introduction, Basic Data Types, Strings, Sets, Math, Itertools, Collections, Date and Time).
